IMAGINE. IMPLEMENT

SURFACE MATTERS™ 

— 2021-2023 —

IMAGINE

What if everything we imagine
can become a reality?

That's the question we ask ourselves every day. That way, we don't have to worry about what we can and what we cannot. Instead, we are inspired to imagine more and create better, to believe more in ideas that can transform the spaces we live in and thus change the lives we touch.

IMPLEMENT

Dorby Mica Features

We understand that you put a lot of time and effort into designing spaces to perfection. That's why at Dorby Mica, we go the extra mile to complement your efforts, by fabricating surfaces that last a lifetime.

All our laminates are **ISO 9001 certified** and go through rigorous checks & manufacturing processes, so that we deliver quality surfaces with flawless finishes.

Our warranty is applicable in case of manufacturing defects and damages in the lifetime of all Dorby Mica laminates. Claims will only be accepted if the product has defects and damages even after adhering to the care & maintenance guidelines.

For further information, visit www.dorbypanels.com.

Anti-fingerprint

For those who want their surfaces to impress, yet don't want impressions left behind. Who obsess over water marks & wine stains because they value their surfaces. For them, the Anti-fingerprint collection with special resin coating is a smart option that allows them to play host, without worrying about their surfaces.

Unicore

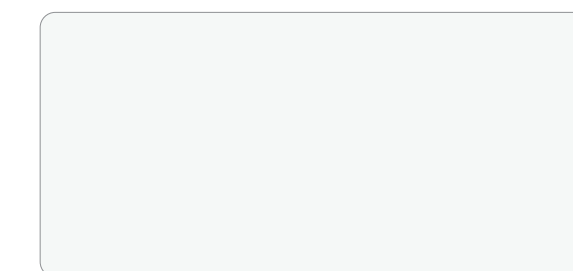

A collection fabricated for the perfectionists. For the ones who find satisfaction in symmetry, order & uniformity; the ones who refuse to accept mediocrity. For such individuals, dark edges and unappealing finishes just won't do. Specially for them, we've assembled a range of solids with identical surface & core layers, so that every curve & corner has a flawless finish.

Twinkle

Designed for those who radiate positivity like twinkling stars. Who don't let life get them down. They are the ones who shine with optimism and sprinkle happiness like fairy dust. The Twinkle range helps them emanate their energy and zest for life through their living spaces, with sophistication.

Luminous Solids

Collated for the ones who don't demand much attention, but are certainly worth paying attention to. They are the ones who are humble, yet have a lot to be proud of. For such vibrant yet nonchalant personalities, we have a range of Solid lustrous surfaces that reflect their charisma with subtlety.

Synchromatch

For the ones who feel at home in nature, who find peace in the ruggedness of the outdoors. Who are enchanted by the tales that wilted wood tell and find perfection in grooves & grains. For them, we've assembled a range of wooden textured laminates that are as real as nature intended them to be.

MF Impregnated décor paper

Specially chosen décor paper that is impregnated with MF resin and impressed using a matching stainless steel finishing plate.

Impregnated kraft paper

Kraft paper that has been impregnated with PF resin and provides impact resistance and prevents bowing of the laminate panel.

Fusion

They are the ones whose characters are defined by contrast. They can be refined but eccentric; shabby but chic. They aren't afraid of fusing styles that are on opposite ends of a spectrum. They are the ones who seek the best of both worlds. The Fusion collection reflects combinations of interior design styles that mirror the contrasting personalities of such individuals.

Earthy

A collection for the ones who like sculptors, see beauty in the unrefined bounties of nature – riverside pebbles, rocky mountains & stonehenges. They are drawn to the organic appeal of stone veins and the aura of serenity that it elicits. For such individuals, the Earthy collection offers a range of muted tones and coarse textures that create an ambiance of Zen at home.

Technical Specification

Properties	Specified values as per IS:2046-1995, Type S, HGS	Dorby Mica Conforms	Specified values as per IS:2046-1995, Type S, HGS	Dorby Mica Conforms
Thickness	1.00 mm (± 10%)	√	1.50 mm (± 10%)	√
Resistance to surface wear	350 (revolutions)	√	350 (revolutions)	√
Resistance to immersion in boiling water - Mass increase (%) - Thickness increase (%) - Appearance	10.0 (Max) 11.8 (Max) Not worse than 4	√	7.5 (Max) 8.5 (Max) Not worse than 4	√
Resistance to dry heat 180° c	Not worse than 4	√	Not worse than 4	√
Dimensional stability at deviated temperature - Longitudinal (%) - Transverse (%)	0.55 (Max) 1.025 (Max)	√	0.44 (Max) 0.86 (Max)	√
Dimensional stability at 20° c - Longitudinal (%) - Transverse (%)	0.375 (Max) 0.60 (Max)	√	0.31 (Max) 0.49 (Max)	√
Resistance to impact by small diameter ball	20 N (Mini)	√	20 N (Mini)	√
Resistance to cracking	Not worse than 4	√	Not worse than 4	√
Resistance to scratching	2 N (Mini)	√	2 N (Mini)	√
Resistance to staining	Not worse than 5	√	Not worse than 5	√
Resistance to colour change (wool standards) - In xenon arc light - In enclosed carbon arc light	Not worse than 6 Not worse than 5	√	Not worse than 6 Not worse than 5	√
Resistance to cigarette burns	Not worse than 3	√	Not worse than 3	√
Resistance to steam	Not worse than 4	√	Not worse than 4	√
Appearance	Should be free from foreign particles	√	Should be free from foreign particles	√
